Qualified System Integrator Training (m/f/x)

Description

For over 25 years now, we have implemented complex, tailored and future-oriented IT solutions for mid-sized companies. Our motto: IT is simply supposed to work. We currently serve 400 customers, 3,500 servers and 17,000 workstations.

Want to work for a company that gives you space for your own personal development and allows you to grow with the challenges you are given? If you do, you should choose abass. This is the place where you can demonstrate your communication skills, your knack for technology and your passion for servicing customers. As a trainee, you are involved in IT projects from the get-go.

This what abass offers you

- Practice-oriented 3-year training with the possibility of completing the training 6 months in advance
- Attractive salary with an annual salary raise during the training
- Strong support by experienced professionals during the entire length of the training
- Free beverages, fresh fruits, lunch, healthcare, company pension benefit
- Short decision paths and opportunities for individual personal growth
- Very good chance of obtaining a permanent position with abass after completing the training

For abass – your duties and responsibilities

- You learn how to manage and launch complex IT systems and to maintain server systems
- We include you in projects and day-to-day routines from the beginning
- You learn how to systematically limit and fix IT disruptions
- You help provide our customers with IT advice and support across the board
- You provide support on site and remotely

For the future – your attributes

- Secondary school certificate or advanced technical certificate
- Enthusiasm for IT topics, confidence in handling computers and curiosity and interest in learning everything about the interplay of hardware and software components
- Initiative, flexibility, and a willingness to take on new responsibilities
- Enjoy teamwork and the ability to solve problems independently
- You enjoy teamwork and have the capacity to solve problems on your own
- Good command of German and English
- Class B driving licence
